

# Skeena-Queen Charlotte Regional District

## BOARD POLICY

Title:	Equipment Rental	
--------	------------------	--

### 1. PURPOSE

The Skeena-Queen Charlotte Regional District will try to minimize competition with the private sector for rental of equipment by making it cost prohibitive.

### 2. POLICY

The Skeena-Queen Charlotte Regional District (SQCRD) will attempt to minimize the competition with private business for equipment rental by applying the following policy:

- 2.1. The SQCRD will not actively bid or solicit business in competition with local business.
- 2.2. In the event that members of the public request rental of equipment outside the prescribed service delivery, the SQCRD will first encourage the public to seek private services in the community and region.
- 2.3. In the event that members of the public cannot find satisfaction in the provision of equipment rental with a private business, the SQCRD may consider provision of rental services with a fair market price and an added 15% surcharge. Fair market price is the price offered by free enterprise business in the community or region. If no fair market price is available, the Regional District may estimate the reasonable charge as appropriate.
- 2.4. In the event that the SQCRD provides services and/or equipment, a record of fees and charges billed to provide any services will be kept.
